

## SKILLBUILDERS GROUP PROGRAMME

# MASTER BUILDERS

**Mini Masterbuilders 5-7 years**  
**Masterbuilders 8-11 years**

Through various group activities the children will develop friendship skills, self confidence, and a positive view of themselves. Building activities may include lego or similar construction tasks. The children will:

- practice social communication skills
- practice teamwork
- practice listening and problem solving
- play games to develop social awareness, and self awareness.

Mostly we support the children and encourage them to support each other to enjoy being their own unique selves!
